FOR LEISURE FOR LIVING FOR BUSINESS

EXTRA SPACE

AT HOME - WITHOUT MOVING OR EXTENDING

A busy home just wouldn't be home unless you needed more space sometimes! For family activities, for example. For studying and working. Or simply for living in.

Norwegian Log can provide the extra space you need, without the inconvenience and relatively high cost of building an extension, moving house or renting office space. In many cases, you won't even need planning permission. *We do everything - plan, design and construct - quickly and cleanly. All we need is access through a space the size of a standard doorway. This means you can have a Norwegian Log building on sites where other types of structures aren't feasible.

Take a look at the enclosed price list. The designs are based on the experience of people's needs that we've gained in more than 17 years' successful operation. And they include all the most popular designs chosen by hundreds of satisfied clients over the years. So simply decide how much extra space you need, and contact us. Norwegian Log's construction system, which uses logs cut precisely to size at the factory, means we can satisfy virtually any design requirements.

Space for family and guests	4
Space for leisure activities	5
Space for home offices	6
Space for professions and crafts	7
Space for larger businesses	8

How will you use your extra space?

For living?

Norwegian Log buildings are the fast, economical way to provide cosy accommodation that's self-contained and private, yet within easy reach - ideal for guests, a dependent relative or an independent teenager! *See page 4.*

For leisure?

Norwegian Log buildings are a superb environment for snooker, gyms, pools, spas and games rooms. And the ideal poolside chalet.

See page 5.

Or for your home office?

Norwegian Log buildings are perfect for productive studios and home offices, with a business case that's hard to beat. *See pages 6 & 7.*

Our larger commercial buildings (to accommodate more than four people) offer your business the space it needs to grow. *See back page.*

NORWEGIAN LOG - THE KEY ADVANTAGES

VISIBLY MORE BEAUTIFUL

No cladding, no boarding - just solid log throughout for strength, durability and natural beauty.

SPACE

TO LIVE...

**Cosy, comfortable,
self-contained.
Perfect for living.**

With Norwegian Log, it's like having a second home in your garden. Guests and non-family residents such as au pairs and nurses/carers can enjoy their own accommodation. "Granny" can maintain her privacy, yet still be within easy reach. And teenagers can experience independent living before leaving the family home.

Norwegian Log's versatile construction system makes it easy to achieve the layout you want, with functional spaces for kitchen, shower/wc and everything else you'd expect for comfortable living.

NORWEGIAN LOG - THE KEY ADVANTAGES

INDEFINITE LIFESPAN

There are log buildings in Norway more than one thousand years old - proof of the durability of this traditional construction technique.

SPACE

TO PLAY...

Light and airy,
with classic
Scandinavian styling.

Norwegian Log buildings are ideal for all kinds of active leisure. Perhaps you're thinking of somewhere separate yet safe for your children to play. Or for yourself, because Norwegian Log buildings offer ample space for games such as snooker and table tennis.

Your Norwegian Log building could be your complete home leisure centre, with a gym, shower facilities and even a spa - perfect for a poolside chalet. The high level of natural insulation of solid log keeps running costs low and discourages condensation, for warm, draught-free enjoyment all year round.

NORWEGIAN LOG - THE KEY ADVANTAGES

PROVEN INTERLOCKING SYSTEM
Norwegian Log's precision-cut interlocking system means strong, rigid, draught-free buildings that need only minimal maintenance.

SPACE

TO WORK OR STUDY...

A study or office is becoming increasingly important as more and more businesses are run from home. People often find they need more space than their home can spare. A Norwegian Log home office is the answer, providing a versatile quiet space that's ideal for all kinds of professionals, practitioners and craftspeople.

Powerful business case

Business assets have to work hard, and Norwegian Log buildings are no exception. With a Norwegian Log home office you can forget:

- The expense, stress and wasted time of commuting.
- Lease payments and commitments on commercial property.
- Expensive maintenance and redecoration of a property that's not even yours.

NORWEGIAN LOG - THE KEY ADVANTAGES

GEARED TO BUSINESS

Norwegian Log's versatile construction system makes it easy to create the business suite you need, complete with cabling facilities for computers, etc.

SPACE

FOR PROFESSIONS & CRAFTS...

You could be a potter or a programmer, consultant or composer, artist or aromatherapist - the simple yet distinctive styling of Norwegian Log buildings provides the ideal working environment.

It's a world away from the "spare room" that so many business people struggle with. A serious workplace where you can meet clients with a sense of pride and confidence.

Low running costs

You'll probably use your home office every day, so running costs are important. All Norwegian Log buildings offer high levels of natural insulation, with double glazing as standard. So they are economical to keep warm in winter, while staying pleasantly cool in summer.

Minimal routine maintenance will keep your home office in tip-top condition year in, year out, with no need for internal decoration. Our after-sales service includes an optional 5-year maintenance programme. When you choose this option, your building will be carefully maintained by the specialists responsible for its construction.

■ **Need even more space? See overleaf for Norwegian Log's larger commercial buildings.**

Professional musician's studio

CASE STUDY: Karen Haley and Dave Hawes moved their successful Bodyworks advanced therapy clinic from expensive leased premises to a Norwegian Log building in their Buckinghamshire garden. Already very popular with clients, the new building has a reception, sauna, treatment room, shower room and office.

NORWEGIAN LOG - THE KEY ADVANTAGES

RAPID CONSTRUCTION

Norwegian Log buildings are rapidly constructed on-site using factory-cut components that fit perfectly first time, every time.

SPACE

FOR LARGER BUSINESSES...

Sometimes your business will outgrow even a Norwegian Log home office. For example, when you have more than four people working together. Or you need separate consulting/ treatment rooms and other facilities. Or for commercial applications on a dedicated site,

Two-storey commercial office building - 'Sample Surveys' - Offham, Kent.

'Sample Surveys' - Offham, Kent.

such as shops. That's when you need one of Norwegian Log's larger buildings.

Light and airy, with comfortable accoustics, Norwegian Log's larger commercial buildings offer an excellent working environment with short payback times and low running costs.

Please contact us to discuss your needs.

***PLANNING PERMISSION**

All the buildings in the price list are under 30 sq.m., so they should not need Buildings Regulations approval providing they are sited more than 1m from any boundary. In most cases, planning permission for erection in your garden is not required, subject to the provisions of the Permitted Development Act. As always, you should seek professional advice about the implications of running a business from home.
