*Is your heart yearning for a Garden Sanctuary? Picture a haven where tranquility embraces you and the beauty of nature stirs your soul.*

*Crafted with Norwegian Log's enduring spruce since 1984, our Garden Rooms offer a sustainable sanctuary of warmth, beauty, and exceptional energy efficiency.*

## STEP ONE

# PRESENTING TWO SIGNATURE STYLES

Your vision for more space, our expertise in garden buildings: a seamless partnership. Forget extensions and renovations. Norwegian Log offers the ideal solution to effortlessly add functionality and value to your home with our contemporary garden rooms. Built with natural log insulation and double glazing, and often requiring no planning permission, your dream garden escape is closer than you think.

## Ekstra

### Radiant Beauty in Your Garden.

Elegant garden retreats with a focused design — featuring a signature centered bi-fold entrance, seamlessly connecting your space to the beauty of your garden.

## Vista

### The Power of Purposeful Space.

Expansive garden vistas with a panoramic design — featuring a fully glazed front elevation and flexible multi-fold access, blurring the lines between your interior and the vastness of your garden.

## STEP TWO

# THE DETAIL & PLANNING PERMISSION

*Ekstra Plus*

Our Ekstra and Vista Garden Rooms offer an intelligent solution for enhancing your property. Designed with a discreet height profile of under 2.5 metres, these models typically afford the distinct advantage of placement directly adjacent to your boundary, often without the complexities of Planning Permission.

For those who appreciate a greater sense of vertical space, our Plus option provides an additional 100mm in height, creating a noticeably loftier ambience. However, please note that situating a Plus model within 2 metres of a boundary may necessitate Planning Permission. We recommend consulting with your local authority to ensure a seamless and compliant installation.

*Vista Plus*

*“The best part about our garden room was how straightforward the whole process was. Knowing we likely wouldn't need planning permission saved us so much time and hassle. It was a quick and easy way to get the extra space we needed.”*

*– Mark B., Oxfordshire, UK*

### STEP THREE

# THE BEAUTY OF BESPOKE. YOUR HOME, UNIQUELY YOURS

Your garden room should be as unique as you are, which is why we don't believe in off-the-shelf designs. Every project begins with a conversation about how you live and how you want to use your extra space. From there, we tailor our floorplans to suit your needs—whether that's a dedicated home office, a peaceful hobby studio, a garden gym, or a versatile relaxation room—or we design entirely from a blank canvas to create a layout that truly fits your lifestyle and garden.

From the first sketches to the final finishes, our experienced team will guide you through each stage of the process. Together, we'll explore layout options (including corner models like the Contemporary Vista 35 and Corner Ultra 3.5 for optimal use of garden boundaries), consider how each space should feel and function, and select features that reflect your taste—such as extensive bi-fold or sliding glazed panels for maximum natural light and seamless indoor-outdoor connection, or customisable electrical setups with LED lighting, sockets, heaters, and optional extras like Bluetooth speakers or Wi-Fi controlled air con/heating.

We use only slow-grown Scandinavian timber (sourced from northern Norway's sustainable forests) for long-lasting structural integrity and natural insulation. Our garden rooms feature solid 75 mm thick interlocking log walls that provide excellent thermal performance year round—keeping you warm in winter and cool in summer—complemented by fully insulated floors and roofs, premium engineered timber doors and windows (often with full double glazing), and high-quality finishes throughout.

Our contemporary garden rooms also feature unique architectural elements that elevate both style and experience. Low-pitched roofs with subtle falls for efficient drainage come as standard, while optional fully glazed elevations or corner designs allow you to introduce dramatic light, panoramic views, and architectural interest—perfect for blending modern minimalism with your garden setting.

With high insulation levels built in as standard (combining the natural properties of thick solid logs with additional modern cavity insulation) and the option to integrate sustainable technologies like energy-efficient heating, your garden room will be not only beautiful and comfortable but also energy-efficient, low-maintenance, and environmentally responsible—crafted to serve for generations with minimal upkeep.

## COMPLETELY BESPOKE DESIGN

For those with truly unique requirements, our bespoke design service offers limitless possibilities. Our expert team can work with you to create a one-of-a-kind garden room, incorporating architectural features that reflect your individual style and the specific demands of your garden.

### PITCHED ROOF WITH A GLAZED GABLE FRONT

Bathe your garden room in natural light with a stunning glazed gable, creating a bright and airy interior and a striking exterior feature.

### ELEGANT CAT SLIDE ROOF

Achieve a sophisticated and contemporary aesthetic with a sleek, sloping cat slide roof design.

#### STEP FOUR

## FULL-SERVICE FINISH, FROM DESIGN TO DELIVERY

For those who seek absolute peace of mind, our **Full Service Package** provides a truly effortless end-to-end experience, with every detail meticulously handled from concept to completion.

We start by working closely with you to design your perfect space, tailoring the layout to your lifestyle while optimising every inch of your plot's potential. As your vision takes shape, our experienced team manages the entire planning process, securing any required consents swiftly and seamlessly.

While you finalise your choices, from premium kitchen and bathroom designs to exquisite finishes, fixtures and fittings, we present a carefully curated selection of high-end interior options. This allows you to personalise every element to reflect your unique style and needs.

Once installation begins, our dedicated professionals take full control, overseeing every phase with precision and care: from expertly prepared groundworks through structural build, fit-out and final detailing, right up to a flawless handover.

Your bespoke log home journey starts with inspiration, unfolds without stress, and culminates in a stunning, ready-to-enjoy space, crafted with exceptional quality, built to last for generations and designed for effortless living.

# YOUR GARDEN ROOM JOURNEY

You'll enjoy a seamless experience where our team personally guides you through every step with unmatched expertise and meticulous attention to detail—so you can relax knowing everything is handled perfectly, without stress or surprises.

## SHOWROOM TOUR

Your journey begins with a personalised viewing.

## DESIGN & PLANNING

Your bespoke design, expertly managed by us.

## BESPOKE ASSEMBLY

Your home will be crafted with precision and care.

# Peace of Mind

## WARRANTY AND SERVICE PLAN FOR UP TO 25 YEARS

For over 40 years, we've been crafting log homes to the highest standards, quality we proudly stand behind.

To ensure your building will continue to serve for generations to come, we offer a structured Service Plan that makes it easy to extend warranty coverage up to 25 years. Like any premium property, consistent maintenance protects both appearance and performance.

The Service Plan includes expert inspections every two years to identify routine maintenance needs, such as applying a high-quality microporous oil that preserves the logs' natural lustre and shields them from UV light, wind, and rain.

Owners receive clear, actionable recommendations and a plan for any necessary maintenance. Our goal is to support the long-term preservation, value, and enjoyment of every garden room.

## Meet the Team

## YOUR PROJECT, EXPERTLY GUIDED

Our commitment to excellence extends to every facet of your project. Unlike some, we never delegate to external agencies. Your vision is entrusted solely to our meticulously vetted, in-house team: seasoned sales consultants, master craftsmen, experienced operations managers, and dedicated customer experience professionals.

## SUSTAINABLE, SOPHISTICATED, SMART.

In an era of rising energy costs, efficiency has never been more important. Our log homes—meticulously crafted with Norwegian design principles—seamlessly blend robust log construction with advanced insulation technologies. This synergy ensures optimal thermal performance, keeping interiors cool in the summer and warm and inviting throughout the winter, all while significantly reducing running costs.

Our exclusive partnership with a leading Norwegian manufacturer further strengthens our commitment to sustainability. Their rigorous replanting policies ensure that more trees are planted than harvested, safeguarding the natural beauty of our landscapes for generations to come.

## OUR PROMISE TO YOU

Our reputation is built on unwavering principles. Every home we craft reflects quality, integrity, and timeless beauty. Using sustainably sourced, slow-grown Scandinavian timber, we deliver with care and ethical commitment, building lasting client relationships through transparency and trust.

Our experienced in-house teams ensure exceptional craftsmanship and guide clients through every stage — from design and planning to final fit out. We navigate planning permissions with precision and uphold a strong commitment to sustainability, using renewable materials and energy-efficient designs to reduce environmental impact and promote healthier living.

Reliability is at our core, backed by decades of proven performance and comprehensive warranties. Understanding that homebuilding is deeply personal, we offer bespoke designs and dedicated support to help families create spaces where they can thrive. With transparent communication and adaptable solutions, we make sure every client feels informed, supported, and confident.

# A MESSAGE FROM OUR CEO, EDWARD TAYLOR

It has been a genuine pleasure introducing you to Norwegian Log. I have the privilege of leading an exceptionally dedicated team whose commitment to crafting high-quality garden rooms builds upon a strong foundation established since the 1980s. This dedication is a source of immense pride.

Choosing a supplier for your garden room is a significant decision - this is a major milestone in life. We understand that this process is driven by both practical and personal considerations, and our team approaches every project with the aim to serve as a trusted partner.

What truly sets Norwegian Log apart extends beyond our heritage, quality, and sustainability – it is, above all, the calibre, expertise, and dedication of the people behind every project.

I am consistently impressed by our team's expertise, meticulous attention to detail, and genuine commitment to creating garden rooms that enhance the lives of our clients. Operating from our headquarters in Reading, they serve families and businesses across the country with dedication and professionalism.

We are deeply invested in helping to bring your project to fruition, and delivering a warm, comfortable, and robust log home which will continue to serve for generations to come.

Thank you for reading this far, and I hope we'll soon welcome you to view our show homes.

With sincere appreciation,

**EDWARD TAYLOR**  
**CEO, NORWEGIAN LOG**
