Picture your own private oasis: a beautifully crafted swimming pool surrounded by warm, natural timber structures that blend effortlessly with your landscape.

Since 1984, Norwegian Log has specialised in superior log cabins, pool houses, and pavilions built from slow-grown Scandinavian timber. This exceptional material is celebrated for its natural warmth, outstanding comfort, and impressive energy efficiency.

ENJOY YOUR POOL IN COMFORT, ALL YEAR ROUND

A Norwegian Log pool building creates a beautiful, practical setting for your pool, transforming it into a space you can enjoy in every season.

Whether you are investing in a complete pool building and enclosure package, or looking to enclose an existing pool, our solid log structures are designed around your space, your usage, and your long term plans.

In the following pages, you will discover what makes Norwegian Log pool buildings different, from materials to build quality, how our complete pool building packages offer a faster, simpler route from design to installation, and how our buildings are adapted for specialist uses, including hydrotherapy pools, commercial facilities, and larger pool projects.

"We really liked the Norwegian Log style of building when we saw it. The finished building has received gasps of amazement from the returning teachers. We now have a first class pool."

- Simon Douglass, Bursar, Bethany School

STEP ONE

WHAT MAKES NORWEGIAN LOG ENCLOSURES SPECIAL?

Solid Log Throughout

Solid log construction offers a warm welcome that lasts indefinitely with only minimal maintenance. Norwegian Log buildings are constructed with 5" / 125mm laminated log (3" / 75mm also available). Inside, the walls are insulated and finished with the natural beauty of split logs harvested from the responsibly managed forests of Northern Norway. Other finishes are available. Our solid log design ensures strength, durability, and the unique Norwegian Log Effect™ – a feeling of timeless quality that lasts.

Natural Insulation Combined with Draught-Free Joints

With Norwegian Log, you can enjoy your pool all through the year. First, the log provides a high level of natural insulation (see price guide for detailed specifications). Quite apart from keeping you comfortable, this also contributes to low running costs. Second, Norwegian Log's special interlocking corner joints and double tongue and groove jointing means your enclosure is strong and draught-free. Our buildings are environmentally friendly, combining sustainable construction with the latest pool technology for both capital and running cost efficiency.

Advantages Over Other Construction Methods

Norwegian Log buildings are installed quickly and cleanly compared with traditionally constructed brick enclosures, and at a very competitive price. With Norwegian Log, you can be enjoying your pool sooner than you might expect with traditional building techniques, and with minimal disturbance to your home and garden. However, this is not achieved by using lightweight materials or taking design shortcuts. Your building will be constructed using the same techniques as Norwegian Log's larger commercial pool enclosures.

The solid log also means Norwegian Log enclosures have comfortable acoustics, largely free from the disturbing echoes experienced with some construction methods. In fact, a Norwegian Log enclosure is the natural home for your pool, in every sense. Our show home is 36 years old, yet customers still say it looks and feels brand new – that's the quality of our workmanship and materials.

Ideal Home

STEP TWO

CHOOSE THE POOL YOU WANT

Norwegian Log makes it easy to match the pool you want with the enclosure that will ensure maximum enjoyment.

CHOOSE YOUR OWN POOL CONTRACTOR

Norwegian Log is not tied to any pool contractor, so you are free to choose the company you prefer.

You can take advantage of their expert knowledge of pool construction and local conditions. And you will also have the peace of mind that comes from dealing with a local, accountable business. If you would like help finding a contractor, we will be glad to make recommendations, but whichever pool contractor you choose, you can be totally confident that we will work closely with them to ensure your contract runs smoothly from start to finish.

STEP THREE

CHOOSE THE PACKAGE YOU WANT TO SUIT YOUR LIFESTYLE

Norwegian Log's versatile construction system makes it easy to include everything you need for a relaxed poolside lifestyle.

A kitchen or bar, perhaps, or a gym area for a workout as energetic as you choose. You could prepare for your swim with a sauna, for example. The sauna's penetrating heat makes it the perfect prelude before you plunge into your pool. Soak up the warmth, or simply lie back and enjoy the deep cleansing sensation.

Then after a workout in the pool - or a tough day at the office - you could relax in your own spa bath. Warm and comfortable, with controllable massaging jets or air blowers, a spa is ideal for easing away your aches. Or simply socialising with friends.

“The high quality timber gives that luxury look and makes you feel like you are on holiday, like a traditional ski chalet, which is exactly what I want.” – Charlie Alexander, owner of Cambridgeshire Lakes.

HYDROTHERAPY POOLS

A SANCTUARY OF HEALING, COMFORT & RENEWAL

Crafted from the same solid, responsibly sourced logs (5" / 125mm standard), these bespoke pools offer exceptional natural insulation, draught-free comfort, and soothing acoustics.

The light, honey-toned timber bathes the space in warmth and calm, reducing stress whilst promoting gentle movement and recovery. These enclosures are perfect for home-based therapy and mobility support, special needs education and care facilities, private wellness retreats, and community and charitable projects.

Our versatile system integrates essential features seamlessly, including ceiling hoists, wide access points, adjustable depths, handrails, and calming natural light, all whilst preserving the signature Norwegian Log elegance. You can enjoy low running costs, minimal maintenance, and the peace of mind that comes with a space built to last for generations.

POOLS FOR SCHOOLS

INSPIRING WELLNESS, LEARNING & LIFELONG CONFIDENCE

Envision a vibrant, sunlit aquatic haven where young minds and bodies thrive—where every splash builds lifelong confidence, every lesson fosters teamwork, and the gentle warmth of natural timber creates an inviting space that feels like home. Norwegian Log school pool enclosures provide the perfect year-round setting for swimming tuition, PE programmes, extracurricular clubs, and community events, helping schools inspire healthy, active futures.

Perfectly suited to educational needs, the design allows for spacious layouts supporting group lessons, with thoughtful integration of safety elements such as wide access, clear visibility, non-slip surfaces, and generous natural light through skylights and expansive windows. Schools enjoy remarkably low running costs, minimal upkeep, and the certainty of a durable structure crafted to serve multiple generations of pupils.

RESIDENTIAL & HOLIDAY PARK POOLS

ELEVATING GUEST EXPERIENCES WITH TIMELESS WARMTH & LUXURY

Picture your own sun-drenched indoor paradise where vaulted timber ceilings soar above crystal-clear water, lush plants thrive in gentle natural light, and the soft glow of honey-toned logs creates a cocoon of warmth and relaxation.

For residential pools these bespoke buildings become seamless extensions of your lifestyle, perfect for daily swims, family gatherings, or quiet evenings with a book by the water's edge.

In holiday parks and hotels the same craftsmanship scales up to create captivating centrepieces that delight guests of all ages. Spacious layouts with expansive glazing, skylights, and thoughtful amenities such as relaxation zones, changing facilities, and panoramic views ensure the pool becomes a highlight of every stay, encouraging repeat visits and glowing reviews.

COMMERCIAL/SEMI-COMMERCIAL POOLS

Norwegian Log supplies enclosures for larger pools for hotels and holiday parks as well as charities, public bodies and schools in all sectors. Combining Norwegian Log's sustainable construction method with the latest pool technology gives you a pool that's both environmentally friendly and attractive. We work closely with specialist pool contractors to ensure competitive capital and running costs, so you get the most from your budget, and we have long experience of working with fundraisers.

NORWEGIAN LOG *Peace of Mind*

WARRANTY AND SERVICE PLAN FOR UP TO 25 YEARS

For over 40 years, we've been crafting premium garden rooms to the highest standards, quality we proudly stand behind.

To ensure your building will continue to serve for generations to come, we offer a structured Service Plan that makes it easy to extend warranty coverage up to 25 years. Like any premium property, consistent maintenance protects both appearance and performance.

The Service Plan includes expert inspections every two years to identify routine maintenance needs, such as applying a high-quality microporous oil that preserves the logs' natural lustre and shields them from UV light, wind, and rain.

Owners receive clear, actionable recommendations and a plan for any necessary maintenance. Our goal is to support the long-term preservation, value, and enjoyment of every garden room.

Meet the Team

YOUR PROJECT, EXPERTLY GUIDED

Our commitment to excellence extends to every facet of your project. Unlike some, we never delegate to external agencies. Your vision is entrusted solely to our meticulously vetted, in-house team: seasoned sales consultants, master craftsmen, experienced operations managers, and dedicated customer experience professionals.

SUSTAINABLE, SOPHISTICATED, SMART.

In today's market of rising energy costs and tightening sustainability standards, operational efficiency has never been more critical. Norwegian Log cabins are engineered with precision, combining the strength and thermal performance of traditional log construction with advanced insulation technologies. The result is superior energy efficiency, reduced heating and cooling costs, and lasting comfort for guests and residents alike.

Our exclusive partnership with a leading Scandinavian manufacturer ensures every building meets rigorous environmental and quality standards. All materials are sourced responsibly, and our reforestation policy guarantees that more trees are planted than harvested. For developers, operators, and investors, this means long-term cost savings, durable low-maintenance structures, and a genuine commitment to sustainable construction — values that enhance both reputation and return on investment.

OUR PROMISE TO YOU

Our reputation is built on unwavering principles. Every cabin we craft reflects quality, integrity, and timeless beauty. Using sustainably sourced, slow-grown Scandinavian timber, we deliver with care and ethical commitment, building lasting client relationships through transparency and trust.

Our experienced in-house teams ensure exceptional craftsmanship and guide clients through every stage — from design and planning to final fit-out. We navigate planning permissions with expertise and uphold a strong commitment to sustainability, using renewable materials and energy-efficient designs to reduce environmental impact and promote healthier living.

Reliability is at our core, backed by decades of proven performance and comprehensive warranties. Understanding that what we do is deeply personal, we offer bespoke designs and dedicated support to help businesses and families create spaces where they can thrive. With transparent communication and adaptable solutions, we make sure every client feels informed, supported, and confident.

SPEAK WITH OUR POOL EXPERTS

We warmly invite you to experience the quality of our log cabins and glamping pods firsthand. We believe that seeing our work in person is the best way to appreciate the enduring beauty, warmth of a Norwegian Log cabin.

Visit our headquarters in Reading, Berkshire, and step inside fully fitted two- and three-bedroom log cabins, as well as our range of contemporary garden rooms. These showrooms demonstrate the versatility, functionality, and aesthetic appeal.

During your visit, our knowledgeable specialists and experienced team leaders will be on hand to welcome you and answer any questions.

They are passionate about helping you initiate your projects and can provide valuable guidance on the design and construction process.

To arrange your visit, please contact us on **0118 966 9236** or email sales@norwegianlog.co.uk

A MESSAGE FROM OUR CEO, **EDWARD TAYLOR**

It has been a genuine pleasure introducing you to Norwegian Log. I have the privilege of leading an exceptionally dedicated team whose commitment to crafting high-quality log cabins builds upon a strong foundation established since the 1980s. This dedication is a source of immense pride.

Choosing a structure is a significant decision, particularly when creating spaces designed to support and inspire those who will use them. We understand that this process is driven by both practical and personal considerations, and our team approaches every project with that in mind.

What truly sets Norwegian Log apart extends beyond our heritage, quality, and sustainability – it is, above all, the calibre, expertise, and dedication of the people behind every project.

I am consistently impressed by our team's expertise, meticulous attention to detail, and genuine commitment to creating log cabins that enhance the lives of our clients. Operating from our headquarters in Reading, they serve families and businesses across the country with dedication and professionalism.

We are deeply invested in helping to bring your project to fruition, and delivering a warm, comfortable, and robust log cabin which will continue to serve for generations to come.

With sincere appreciation and pride in our team,

A handwritten signature in black ink that reads "E. Taylor". The signature is fluid and cursive, with a large, stylized "E" at the beginning.
