A photograph of a log cabin building with a wooden door and a large window. The building is constructed from horizontal log sections. The door is made of vertical wooden planks. The window is a large, multi-paned unit. In front of the building is a concrete walkway and a small garden bed with pink flowers and a young tree. The scene is set in a grassy area with trees in the background.

*Picture a learning environment that inspires:
beautifully crafted educational spaces
formed from warm, natural timber buildings
that sit harmoniously within school grounds
and campus settings.*

Since 1984, Norwegian Log has specialised in high-quality log buildings for education, leisure and commercial use, crafted from slow-grown Scandinavian timber. This exceptional material is renowned for its natural warmth, acoustic comfort and impressive energy efficiency — helping to create calm, healthy spaces where students can focus, learn and thrive.

SPACES THAT INSPIRE LEARNING

A Norwegian Log pool environment creates a practical, welcoming setting for school and education facilities, transforming swimming provision into a space that can be used comfortably throughout the year.

Whether you are planning a complete new pool enclosure or looking to house an existing school pool, our solid log solutions are designed around your site, your operational needs and your long-term education objectives, ensuring a safe, efficient and durable environment for students, staff and visitors.

In the following pages, you will discover what sets Norwegian Log apart, from the quality of our Scandinavian timber and construction standards to the way our complete pool solutions provide a faster, more straightforward route from design to installation. You will also see how our pool environments can be adapted for specialist educational use, including hydrotherapy, SEN provision, community access and larger-scale school or college pool projects.

"We really liked the Norwegian Log style of building when we saw it. The finished building has received gasps of amazement from the returning teachers."
– Simon Douglass, Bursar, Bethany School

WHY CHOOSE NORWEGIAN LOG FOR YOUR SCHOOL PROJECT?

Proven Quality & Longevity

Every log building is crafted with precision and natural materials, offering structural performance and durability that supports long-term educational use.

Bespoke Design & Support

We guide you from concept through planning, on-site delivery and final handover — ensuring compliance, function and aesthetics are all integrated seamlessly.

Sustainability & Efficiency

Our buildings use responsibly sourced Scandinavian timber and modern insulation principles to reduce environmental impact and minimise running costs.

THE NORWEGIAN LOG ADVANTAGE

The Norwegian Log advantage lies in creating natural, healthy learning spaces that positively support both students and staff. The sensory qualities of real timber, from its warm appearance to its natural acoustics and subtle aroma, help to create calm, comfortable environments that encourage focus, wellbeing and engagement throughout the school day. Combined with the inherent performance of solid timber construction, Norwegian Log solutions offer excellent insulation and thermal efficiency, ensuring consistent comfort for year-round educational use.

Norwegian Log educational solutions are designed with speed, efficiency and minimal disruption in mind. Compared to traditional construction methods, our projects can be delivered far more quickly, helping schools and education providers expand or improve facilities while reducing on-site disturbance and fitting around tight term-time schedules. This streamlined approach also makes our solutions highly cost-effective, delivering high-quality learning environments that work within education budgets without compromising on performance or longevity.

Flexibility is central to every Norwegian Log education project. Our solutions can be delivered in both modular and fully bespoke formats, allowing layouts and sizes to be tailored precisely to operational and curriculum needs. Options range from modular classrooms that respond to changing pupil numbers, to dedicated nursery and early years environments designed around safety, comfort and regulatory compliance, as well as specialist swimming pool enclosures that provide efficient, all-year-round facilities with low ongoing running costs.

PROJECT SUPPORT & SERVICES

Whether you are expanding capacity, upgrading existing facilities or creating new specialist spaces, Norwegian Log's team provides expert support at every stage of your project. From guidance on planning permission and building regulations, to design and layout consultation tailored to your curriculum and operational needs, through to skilled project management from concept to completion, we ensure your educational project is delivered smoothly, efficiently and with confidence.

MODULAR CLASSROOMS BUILT FOR MODERN EDUCATION

Crafted from the same solid, responsibly sourced Scandinavian timber, Norwegian Log modular classrooms provide exceptional natural insulation, draught-free comfort and excellent acoustic performance, helping to create calm, focused learning environments that support both students and teachers throughout the school day.

The light, honey-toned timber brings natural warmth and character into the classroom, creating welcoming spaces that enhance wellbeing, concentration and engagement. These modular classrooms are ideally suited to primary and secondary schools, academies and colleges, SEND provision, sixth form centres and specialist teaching spaces, offering a flexible and future-ready solution to changing educational needs.

Our modular system integrates essential classroom features seamlessly, including accessible entrances, generous glazing for natural daylight, flexible internal layouts, integrated services and options for toilets, storage or breakout areas. Designed for fast installation with minimal disruption, Norwegian Log modular classrooms offer low running costs, long-term durability and the reassurance of a high-quality learning environment built to perform for years to come.

NURSERY & EARLY YEARS BUILDINGS

BEAUTIFUL BEGINNINGS FOR YOUNG MINDS

Nursery and early years environments from Norwegian Log are designed to create safe, calm and nurturing spaces that support young children's development and wellbeing. Each solution is carefully tailored to meet the practical and regulatory requirements of pre-schools and nurseries, while offering bright, welcoming interiors that encourage play, learning and exploration. Designs are available in both timeless traditional and stylish contemporary styles, allowing settings to reflect their ethos and surroundings. Thanks to high-performance insulation and the natural thermal qualities of solid timber, Norwegian Log nursery environments also deliver low lifetime running costs and comfortable year-round use.

SCHOOL POOL BUILDINGS

HEALTHY, HIGH- PERFORMANCE POOL ENVIRONMENTS

School pool environments from Norwegian Log are purpose-designed to support educational and community use, providing comfortable, high-performance spaces that can be enjoyed throughout the year. Excellent natural insulation and acoustic properties help maintain consistent temperatures and a calm internal atmosphere, creating an ideal setting for swimming lessons, hydrotherapy, SEN provision and extracurricular programmes. Designed for efficient delivery and long-term use, Norwegian Log school pool environments offer faster installation and lower maintenance requirements than many traditional construction methods, helping schools expand or improve facilities with minimal disruption and strong long-term value.

NORWEGIAN LOG

Peace of Mind

WARRANTY AND SERVICE PLAN FOR UP TO 25 YEARS

For over 40 years, Norwegian Log has been delivering high-quality learning environments built to the highest standards, with performance and longevity at the heart of every project.

To ensure your education environment continues to perform for decades to come, we offer a structured Service Plan designed to support long-term durability, safety and appearance, with options to extend warranty cover for up to 25 years. As with any high-quality educational facility, planned maintenance plays a vital role in protecting both operational performance and long-term value.

Our Service Plan includes expert inspections every two years to identify routine maintenance requirements, including the professional application of specialist microporous timber treatments that preserve the natural finish of the logs while protecting against UV exposure and the effects of the British climate.

Schools and education providers receive clear, practical reports and actionable recommendations, helping estates and facilities teams plan confidently for ongoing care. Our aim is to support the long-term performance, sustainability and visual quality of every Norwegian Log education environment.

Meet the Team

YOUR PROJECT, EXPERTLY GUIDED

Our commitment to excellence extends to every facet of your project. Unlike some, we never delegate to external agencies. Your vision is entrusted solely to our meticulously vetted, in-house team: seasoned sales consultants, master craftsmen, experienced operations managers, and dedicated customer experience professionals.

SUSTAINABLE, SOPHISTICATED, SMART.

In today's market of rising energy costs and tightening sustainability standards, operational efficiency has never been more critical. Norwegian Log cabins are engineered with precision, combining the strength and thermal performance of traditional log construction with advanced insulation technologies. The result is superior energy efficiency, reduced heating and cooling costs, and lasting comfort for guests and residents alike.

Our exclusive partnership with a leading Scandinavian manufacturer ensures every building meets rigorous environmental and quality standards. All materials are sourced responsibly, and our reforestation policy guarantees that more trees are planted than harvested. For developers, operators, and investors, this means long-term cost savings, durable low-maintenance structures, and a genuine commitment to sustainable construction — values that enhance both reputation and return on investment.

OUR PROMISE TO YOU

Our reputation is built on unwavering principles. Every cabin we craft reflects quality, integrity, and timeless beauty. Using sustainably sourced, slow-grown Scandinavian timber, we deliver with care and ethical commitment, building lasting client relationships through transparency and trust.

Our experienced in-house teams ensure exceptional craftsmanship and guide clients through every stage — from design and planning to final fit-out. We navigate planning permissions with expertise and uphold a strong commitment to sustainability, using renewable materials and energy-efficient designs to reduce environmental impact and promote healthier living.

Reliability is at our core, backed by decades of proven performance and comprehensive warranties. Understanding that what we do is deeply personal, we offer bespoke designs and dedicated support to help businesses and families create spaces where they can thrive. With transparent communication and adaptable solutions, we make sure every client feels informed, supported, and confident.

SPEAK WITH OUR LOG CABIN EXPERTS

We warmly invite you to experience the quality of Norwegian Log's education environments firsthand. We believe that visiting in person is the best way to appreciate the craftsmanship, material quality and natural warmth that define every Norwegian Log project.

At our headquarters in Reading, Berkshire, you can explore a selection of fully fitted log environments and contemporary spaces that demonstrate the versatility, functionality and design potential of our work. These show environments allow education providers to experience the scale, finish and atmosphere firsthand, and to discuss how similar solutions can be adapted for classrooms, nurseries, specialist teaching spaces and wider school facilities.

During your visit, our knowledgeable education specialists and experienced project team will be on hand to welcome you, discuss your requirements and answer any questions you may have.

They are passionate about supporting schools and education providers at every stage and can offer clear, practical guidance on design development, compliance considerations and the delivery process.

To arrange your visit, please contact us on **0118 966 9236** or email **sales@norwegianlog.co.uk**

A MESSAGE FROM OUR CEO, EDWARD TAYLOR

It has been a genuine pleasure introducing you to Norwegian Log and our work within the education sector. I have the privilege of leading a highly dedicated team whose commitment to delivering high-quality learning environments builds on a strong foundation established since the 1980s, and this long-standing expertise is something we are extremely proud of.

Choosing the right environment for a school, nursery or college is a significant decision, particularly when creating spaces designed to support learning, wellbeing and long-term use. We understand that every education project must balance operational requirements, safeguarding, budgets and future planning, and our team approaches every brief with care, clarity and professionalism.

What truly sets Norwegian Log apart goes beyond our heritage, build quality and sustainability. It is, above all, the calibre, experience and dedication of the people behind every education project, working closely with schools and education providers to deliver environments that genuinely support students, staff and communities.

I am consistently impressed by our team's expertise, meticulous attention to detail and genuine commitment to creating high-quality learning environments that support education and wellbeing. Operating from our headquarters in Reading, they work with schools, nurseries, colleges and organisations across the country with dedication, care and professionalism.

We are deeply invested in helping to bring your education project to life, delivering warm, comfortable and robust learning spaces designed to perform every day and to serve students, staff and communities for many years to come.

With sincere appreciation and pride in our team,

A handwritten signature in black ink that reads "E. Taylor".
